National Political Director

We Engage, We Educate, We Elect

We believe that a "New Majority" will be built on three core values: **Limited Government, Lower Taxes and Free-Markets.** That's the extent of our litmus test, and if you agree, you're with us.

Some have fled California, but we choose to stay, and because we do, we choose to fight for better government at the federal, local and even the state level.

Our eyes are wide open. We know the size of the challenge we face, and that's why we know we must face it together.

Founded in 1999, The New Majority is the largest and most respected Conservative Political Action Committee (PAC) in California. With chapters in San Diego, Orange County, and Los Angeles, our members include many of California's most respected business and community leaders.

Three reasons to join The New Majority:

- 1) Dialogue directly with national, state and local leaders
- 2) Build lasting peer relationships
- 3) Maximize return on your time & financial investments in effecting political change

The Value of Membership

New Majority offers San Diego & Southern California's top business leaders, philanthropists and next generation leaders the opportunity to personally dialogue with our nation's top political leaders. As a member, you will build lasting relationships with your fellow members as you learn together and share your priorities directly with America's leaders.

Working together to accomplish big goals

New Majority Members work together to set priorities each two-year political cycle. As a member, you'll have an equal say in the direction of the organization and all political decisions.

Our Current Goals:

1. Win the White House
2. Grow our U.S. House majority and win the U.S. Senate
3. Broaden the appeal of the Republican Party in California
4. Defeat efforts to increase taxes in California
5. Recruit, train, and support candidates for Congress, Assembly and local offices

A few of our recent past speakers:

Secretary of State
Dr. Condoleezza Rice

Acting DNI
Ric Grenell
